NEWS RELEASE

ELECTROCUBE NOW REGISTERED AS ISO 9001:2000 AND AS 9100A:2001 SUPPLIER

MONROVIA, California...**Electrocube, Inc.**, specializing in design, manufacturing, and sourcing of passive and power system electronic components, has achieved full three year registration of their quality system to the standards of ISO 9001:2000 and AS 9100A:2001. **Electrocube** is an approved supplier of major commercial and defense contractors.

Electrocube offers precision close tolerance and commodity type AC and DC film dielectric capacitors, power system and power factor correction electrolytic capacitors, high power capacitor banks, IGBT snubber capacitors, UL approved RC resistor capacitor networks, surge suppressor devices, custom designed EMI filters, lightweight hi-rel foil transformers for high frequency transportation applications, TRU and current sensing transformers, and replacement analog aircraft ballasts. UL, CE and European listings are available.

These upgraded certifications will enable **Electrocube, Inc.** to continue to be recognized worldwide as a consistent supplier of high quality components and excellent customer service complimented by an enviable on-time delivery record. **Electrocube** products are found in the most demanding applications in the electronic, energy, communication, transportation, aerospace, aviation and audio segments of the commercial, industrial and military marketplaces.

For additional information on **Electrocube** and their new ISO registrations, please visit their website at www.electrocube.com or contact: Ms. Gloria Snyder, National Sales Manager, **Electrocube, Inc.**, 1307 S. Myrtle Ave., Monrovia, CA 91016, TEL: (626) 301-0122; FAX: (626) 357-8099; e-mail: gloriasnyder@electrocube.com.
