electrocube ...it's a part of what we do.

Manufacturing Day

This Friday, October 3, is [Manufacturing Day!](#) In its sixth year, its a celebration of what 12 million people around the U.S. experience every day pride at working in manufacturing. The day raises awareness and expands the conversation about our opportunities and obstacles, ensuring that our industry continues to thrive as the [backbone of America.](#)

Thats why its fitting to take stock of how we've been a part of this great industry for 50+ years.

Sustained excellence: For the seventh consecutive year, Boeing recognized Electrocube with a [Performance Excellence Award](#) issued annually to suppliers for superior performance.

Value engineering: We always look for ways to innovate for our clients. Tom Colella, our resident "cool guy" and Engineering Manager, is at it again. An engineer for 40 years and a musician since before that, hes creating a technical bulletin about how to understand electric guitar and bass tone [capacitors](#) ... the pluses and minuses of metallized and ceramic components and how to make vintage Fenders and older-style Gibsons sing. Send us an [email](#) to be sure youre among the first to receive it.

Look what you're a part of...

Valued partners: Manufacturing is a diversity of jobs and interesting people like Elizabeth Brill of [Compass Components,](#) a trusted Electrocube distributor for over 8 years. A mom of two, Elizabeth has been with Compass for eight years and Avnet & Arrow since high school. She's a dog owner, avid sports fan and a longtime bowling league member.

Keep trekkin': We've had a number of great guesses for our Trek Trivia. We're giving it a little more time. Give it another go and you could [win this.](#)

Founded in 1961, Electrocube specializes in custom designs and the manufacture of film capacitors, RC Networks, EMI Filters and foil transformers for a wide range of applications in the aerospace, audio, elevator, heavy equipment industries and more.
